DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 3 and 5-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

(a) In claim 3, the presence of preferred embodiments renders the claimed scope indefinite.

(b) In claim 5, the presence of exemplary embodiments, and the inclusion of "etc." renders the claimed scope indefinite.

(c) In claim 6 (and claim 7 by dependency), the intended meaning of acrylating a mixture cannot be clearly determined.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 1713

4. Claims 1-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Dupont (US 5,049,623).

The reference discloses compositions comprising SAA, unsaturated carbamates and unsaturated co-reactants for the purpose of making radiation curable coatings (abstract). The recommended co-reactants include a variety of species within the claimed scope at col. 4, line 31 through col. 5, line 29, including in particular ethoxylated bisphenol A dimethacrylate (col. 5, line 18-19). Additional additives are disclosed at col. col. 5, lines 38-48. One of ordinary skill in the art would be motivated to use such embodiments because they have been recommended as useful alternatives.

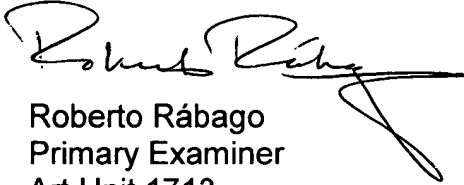

5. The "Other Documents" listed on the IDS were not available at the time of this Office action, and therefore they will be considered at the next Office action. Applicants are requested to provide copies of the four cited documents.
